Government and other Desirable Securities,

No. 5 Nassau St, N. Y.

recommend to Investors the

FIRST MORTGAGE BONDS

OF THE

CENTRAL PACIFIC R. R. CO.

This Company is constructing under the patronage of the

UNITED STATES GOVERNMENT,

the Western end of the

Great National Railway across the Continent,

Their Line will extend from Sacramento, California across the Sierra Nevadas to the California State line traversing the RICHEST AND MOST PICTURESQUE SECTION OF CALIFORNIA, and thence through the GREAT MINING REGIONS OF THE TERRITORIES, to the vicinity of Salt Lake City.

It forms the SOLE WESTERN LINK of the only route to the Pacific which is adopted by Congress and AIDED BY THE ISSUE OF UNITED STATES BONDS.

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The FIRST MORTGAGE BONDS of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons; viz.:

FIRST. The rate of interest is SIX PER CENT. IN GOLD, payable semi-annually in the City of New York.

SECOND. The PRINCIPAL is payable IN GOLD at maturity.

THIRD. The cost of the Bonds, NINETY-FIVE PER CENT., and accrued interest, is TEN PER CENT. less than that of the cheapest Six Per cent. Gold Bearing Bonds of the Government.

FOURTH. The United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re payment.

FIFTH. Owing to this liberal provision, accompanied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.

SIXTH. The Security of its First Mortgage Bond is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

SEVENTH. The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, rendering the uninterrupted payment of the interest absolutely certain.

EIGHTH. At the present rate of Gold they pay nearly 8 1-2 Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

GROWING OLD.

Your face is getting wrinkled,
Your hair is getting gray,
And your eyes have caught a trick
Of looking far away!
But I love you more than ever,
And worship you to-day.

Your step has grown unsteady,
Your voice has lost its tone;
Sometimes I hear you moaning,
A dreary, weary moan;
And I feel that I may soon
Be walking on alone!

The things of earth are fleeting,
And plannings go astray;
And every timid pilgrim meets
A lion in the way;
And only those are safe indeed
Who daily watch and pray!

Ever true unto each other,
And loving God and man;
Thus, arm in arm together,
Our pilgrimage began;
So let us take our duties up
And do them if we can.

NEWPORT.

Friday, June 21, 1867.

THE JULY CONGRESS.

Much opposition is expressed, in some quarters, to the meeting of Congress in July, lest the impeachment and confiscation questions shall be brought forward and urged and a division be thereby caused in the republican ranks. These subjects have been met by such odds against them in the previous session that there appears small probability of their obtaining much of a hearing or occupying much time at the approaching session; and they have not, thus far, occasioned any such division as to affect the harmonious action of the party on the questions essential to the restoration of the peace and integrity of the government. Nor is it probable that such a result will at present follow the efforts of those who favor action on those matters. Congress will hardly be drawn into a protracted discussion of these questions at the approaching session.

In reference to the reconstruction acts there does appear to be a necessity for some Congressional action. The tendency of present movements at Washington is toward the annulling of acts by which the officers in command of the Southern military districts have been, with a good degree of success, transferring the political power from disloyal to loyal hands, and bringing the States into training for readiness to their normal relations to the government. Mr. Stanbery's documents, though transparent specimens of special pleading and sophistical reasoning, are exerting a powerful influence in the executive action in reference to the policy of reconstruction; and, though it is said that the acceptance or rejection of the Congressional programme lies at the option of the Southern people, this reasoning is not altogether true.

The will of the people of these States has never been fully and fairly ascertained. Whatever elections have been held have been held only by a portion of the people. The views of a large proportion, in most instances a majority of them, have not been expressed through the ballot box, as they have been debarred access to that method of expression. Should the ballot of the whole people who are to be affected by the course taken for reconstruction be taken, it would result in a great majority in favor of the Congressional mode. Until the popular element is empowered to dictate the measures for its government, no proper government can be established. It is not, then, as yet at the option of the people whether to accept or reject the plan offered them; and it is the policy of the President and the Attorney General to prevent the people as a whole from enjoying this opportunity. Such is the necessary result of the recommendations of Mr. Stanbery.

The purpose of the military bill is, to authorize the commanders to initiate and direct such proceedings as will call forth the real wishes of the whole people on this subject at the ballot box; and this purpose is in danger of defeat. Congress can prevent this by such supplementary legislation as may be deemed necessary. It is time for the matter to be approaching a final adjustment. The loyal people of the whole country are impatient of further unnecessary delay. If such delay is likely to result from the policy now apparently in favor at Washington, they are desirous for Congress to meet and hasten the process by meeting the dilatory acts. The demand for quiet and a settled basis for the political and business interests of the country is pressing and earnest. The inconvenience of a session of Congress, or even apprehended danger to party interests, is no sufficient reason for allowing the feasible measures of reconstruction to go by default after it has become evident that they are effecting their purpose. The most speedy action that is compatible with safety is the wisest, justest and most politic course.

The Anti-Popery Riot at Birmingham, England.

In the absence of any explanation of the cause of the recent anti-Popery riot at Birmingham, England, the theory is started that a great deal of excitement has been created in that neighborhood recently by two men named Scott and Murphy, who have been employed by the Protestant Electoral Union to circulate a tract about the confessional. One of them was prosecuted at Wolverhampton (12 miles from Birmingham) on a charge of selling an immoral and obscene book. He was convicted, and appealed: the decision of the lower court was reversed; and the distribution of the objectionable pamphlets was pushed more vigorously than ever. Murphy has made considerable noise in England during the past year as an anti-Popery speaker of the most vehement class, his holy zeal being especially inflamed against all who had left Protestantism for the bosom of the Roman Church; and as Birmingham is the headquarters of the Priests of the Oratory, most of whom were, like their leader, Dr. Newton, originally clergymen of the Church of England, we shall not be rash in conjecturing that Murphy and the tract business had something to do with the riot.

The New York Tribune says in this connection:

Religious riots have been of frequent occurrence in England and Ireland during the last twenty years, in some instances of a formidable character, and attended with fatal results. On the 12th of July, 1849, there was an affray at Castlewellan, in Ireland, between the Orangemen and the Roman Catholics, in which several of the latter lost their lives, and some of their houses were ransacked and burned. In 1852, 1858, and 1862, there were serious religious riots at Belfast, in Ireland, and in the same city, in 1864, there were fierce conflicts between Roman Catholics and Protestants on account of the foundation of the O'Connell monument at Dublin, when nine lives were lost and 150 persons injured. Then there were the riots at the Church of St. George's in the East in London, in September and November, 1859, and the fierce rioting which took place at Hyde Park on the occasion of Garibaldi's visit to England in 1862. Now we have the riot at Birmingham, of which the Cable brings us the news. The spirit of religious bigotry is still vigorous, it would appear, and its bitterness seems to be intensified by political differences.

To American Tourists.—A correspondent of the London Times gives a rather uninviting picture of Naples just now. He remarks that "the condition of the city when the sirocco blows is poisonous," and that he has "never known it to be so foul or filthy as at the present moment. Fever is rife; the water supply is so scanty that numbers of the inhabitants perish from drought and dirt, and no efforts of any kind are made to carry off the sewage, which putrefies beneath the feet and taints the air."

We give this for what it is worth, having heard as yet no corroboration of it from other sources. But if it be true, the ancient prestige of Naples as a healthful and seductive resort for the valetudinarian tourist must soon fade away, and the old saying "see Naples and die" will be apt to find a new and melancholy interpretation. The neglect of the authorities is the less excusable when we remember the admirable facilities for thorough drainage which the position of Naples affords.

Skinned Alive by Indians.—On the 11th of May, as Mr. Gooch and a number of his neighbors, of Mason County, Texas, were driving about 1,000 head of cattle to the headwaters of the Concho to deliver them to contractor Adams, of New Mexico, to supply the Indian reservation of Fort Sumner, they were attacked by a party of either Southern Camanches or Kickapoos, all the cattle captured and one man killed. The body of the latter was afterwards found, skinned down to the waist, and the head completely severed; the supposition being that he was skinned before death, as these fiendish deeds are only inflicted for torture.

If the thousands who are suffering from Dyspepsia, Female Weakness, &c., would but test the virtues of the Peruvian Syrup, the effect would not only astonish themselves but would please all their friends; for instead of feeling cross, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS:

I have tried the Peruvian Syrup, and the result fully sustains your prediction. It has made a new man of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years.

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

At a meeting of the City Council holden Newport, June 11, 1867, the following ordinance was passed;

An "Ordinance in amendment of an 'ordinance establishing a Fire Department.'"

It is ordained by the City Council of the City of Newport as follows:

Section 1. Section 1 of said ordinance establishing a Fire Department, is hereby amended so as to read as follows:—The fire department of this city shall consist of a chief engineer and five assistants, to be elected annually by the City Council, at its first meeting for election of officers in June: the chief engineer and said assistants shall together constitute a board to be called firewards; there shall also be as many engine-men, hosemen, and hook and ladder men, to be divided into companies, as the number of engines and the number and quantity of other fire apparatus belonging to the city shall from time to time require. The City Council shall annually in the month of June designate the number of men that each engine, hose and hook and ladder company in the city shall be entitled to, in such cases where the same is not designated by special acts of the General Assembly.

Sec. 2 All ordinances and parts of ordinances inconsistent herewith are hereby repealed.

Sec. 3. This ordinance shall go into effect immediately after its passage.

Attest: Benjamin Marsh, 2d.,

Dr. Schenck, the Lung Doctor.

IF The Proprietor of SCHENCK'S PULMONIC SYRUP, the inventor of SCHENCK'S RESPIROMETER, the only instrument that can be a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when, by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood, hemorrhage follows, and, in fact, stopping the action of the very organs that caused the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond Street, New York, and 38 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free; but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box. GEO. C. GOODWIN & CO., 38 Hanover Street, Agents for Boston. VISIT TO NEWPORT ASYLUM.—His Honor the Mayor and the City Council made their annual visit to the Asylum, yesterday afternoon, on an invitation from the Commissioners. Besides the City Council there were several past Commissioners, members of the press, &c., making, in all, a company of about forty persons.

The company were received by the Commissioners and escorted over the buildings and grounds. In the chapel an address of welcome was made by the Chairman of the Commissioners, William B. Sherman, Esq., in which he invited their inspection of the whole premises and suggestions if any they had to make. He awarded all the credit for the good order and cleanliness of the building and surrounding premises to the Keeper and Matron, Mr. and Mrs. William A. Wheley, whose equals in that respect he believed could not be found in New England. He was replied to briefly and appropriately by his Honor the Mayor.

A ramble over the houses and grounds occupied an hour and sharpened the appetites of the visitors, so that they sat down with a relish to the Corporation dinner of doughnuts and milk, with "side-dishes" of cold ham, fried beef, brown and white bread, butter, cheese, etc., all of which, except the wheat of which the flour was made, were grown and manufactured on the premises, and all of which were first rate. After a blessing invoked by Councilman Carr, the company fell to, and great was the havoc made. Members of the press present viewed with astonishment and awe the vast quantities of milk and doughnuts, to say nothing of the ham, beef and coffee that some of these chaps did stow away. There were recently elected Aldermen there, whose abdominal proportions had never been up to the mark, but who on this occasion received the congratulations of their friends on the flattering prospect before them. Even our feeble and emaciated friend Alderman Underwood, sometimes called Brattle, was noticed to wear a self-satisfied smile upon his countenance, and even found the benevolence of his heart swelling up towards his Aldermanic friend Stoddard, of the First Ward, whose labors in the gastronomic line were particularly arduous and whose pockets were found, at the close of the repast, to contain evidence of the feast of doughnuts, brown bread and ham.

But all things have an end, and so did this excellent repast, after which the visitors departed, each satisfied of the entire capabilities of the Commissioners to plan, and the Keeper and Matron to administer the affairs of the establishment.

The Asylum has now fifty-two inmates, whose situation, we venture to say, is far superior to a large class of the community outside. Their rooms are clean, well ventilated and comfortably furnished with *feather beds*, while the best of care and medical attendance is provided for them in case of sickness.

We noticed among the fixtures of the chapel a fine melodeon, which is used during the chapel service on each Sabbath.

ELMA M. DAME, Librarian.

We learn that the Friends in this city have decided to enlarge their meeting house on Farewell street 25 by 40 feet. Though now the largest house of worship in the city it is not sufficient to accommodate the increasing numbers who come here to enjoy the yearly meeting. It is said that the number in attendance this year is greater than for many years before.

Strange.

"How strange," a lady once exclaimed
As coming down the street
She chanced a dear and lovely friend
Quite suddenly to meet
"Why is it that you look so fair
"What is the secret pray?"
"Why, darling *Grace's Salve* I use,
"It takes all *moth* away;
"And it will take the *blotches* off
"Your own bright sunny face;
"Try it, my love, and evermore
"You'll give for it a place."

News Miscellany.

The Washington correspondent of the New York *Express* says that the Cabinet has finally decided with reference to the opinion of the Attorney General, that there shall be no reversal of the acts removing State officials, but that orders shall be issued which shall *forbid a repetition of such removals*.

The New Bedford *Mercury* thinks the true man for the next Presidency is Gen. George H. Thomas.

The sewing machine is likely to have a rival in an invention recently perfected, by which wearing apparel of all kinds—shirts, pantaloons, vests, skirts, ladies' mantles, jackets, coats, etc., etc., are both woven and sewed at the same time. The sewing of the seams is stronger even than hand sewing, and perfectly smooth and even.

Hinton Rowan Helper, the author of the famous "Impending Crisis," it is said, has recently written a book entitled "Nojoque: A Question for a Continent," in which he abuses the negro race in the coarsest and most disgusting terms, and expresses the hope that the whole black people of the continent will either be exported or die out and disappear.

At Litchfield, Conn., on Sunday, Captain Salmon Buel celebrated his one hundredth birth-day by attending the Congregational Church, the congregation rising as he came in, and the choir singing Old Hundred.

When the Military bill passed Congress the Republican press in the non-reconstructed States numbered fifteen small journals only four of which were dailies. There are now thirty-six, of which fourteen are dailies, several are tri-weeklies, and the remainder published weekly.

A traveler in Texas writes that that State, as soon as the Indians are reduced to subjection, will be able to supply the whole country with better corned beef than can be produced in any other part of the world, and of course much cheaper.

One of the men in the freight department of the Cape Cod Railroad has lately been detected in purloining packages from the freight cars, and concealing them near his home. He has been arrested and confined in the Barnstable jail. His name is F. Taylor.

James K. Polk is second lieutenant of a colored military company in Providence.

The New York *Commercial* says that in the duties assigned to females in the Treasury Department, they are much more expert than men, and accomplish more for half the money, than could be done by masculine fingers. There are, too, among the female employes, rapid and correct bookkeepers.

INDIAN OUTRAGES IN KANSAS.—A letter dated Fort Wallace, June 12, reports a number of Indian outrages in that vicinity on the 3d inst. Two men Favor and Wallace, were killed and scalped between Pond and Goose creeks.

On the 6th two men from the mines, names unknown, were killed within half a mile of the same place, and on the 11th a coach from the west, containing Lieut. Bell, three soldiers, lady passengers the driver and guard, was, attacked by 25 or 30 Indians 25 miles from Fort Wallace. One soldier was killed, and the others dismounted and fought the Indians four miles, and finally repulsed them killing two.

The Government train is reported to have been attacked on the 17th eighteen miles west of Fort Harker, One man was killed and his body horribly mutilated. The Indians are so troublesome that the stage drivers refused to go out, and eight of them have deserted their coaches. It was rumored at Pond Creek that Gen. Custar had been repulsed by the Indians, who came down in force from the Platte Valley.

The President, yesterday, issued a proclamation announcing the ratification of the treaty with Russia ceding the Russian territory on this continent to the United States.

Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their recuperative qualities are unrivaled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The ALPINE BITTERS have a soothing and restoring influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.

The continually increasing demand for this universal popular EUROPEAN TONIC and ANTI-DYSPEPTIC ELIXIR, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

Can be obtained by all Druggists and other dealers.

No. 1,
THE CHINGARORA
ANTI-NERVOUS
Smoking Tobacco !

The CHINGARORA TOBACCO grows from the rich soil of the "ORIENT," and is possessed of a peculiarly delicious flavor entirely unknown to the tobaccos of all other climes. But its unprecedented popularity has sprung from the fact of the entire absence of that deadly poison, *Nicotin*, which permeates every other tobacco, and which is the one and sole cause of the distressing nervous diseases, dyspepsia, &c., which most invariably, sooner or later, follow the indulgence of the pipe and cigar. At the recent analyzation of tobacco from all parts of the world, at the Academy of Sciences, in Paris, the renowned Chemist M. LAMOUREAUX, declared that while European and American tobacco contained fully eight per cent. and the purest Havana tobacco from two to five per cent. of *Nicotin*, the CHINGARORA did not contain one discernable particle of that deadly poison, a drop of which, extracted, will destroy life.

Our agent at BOMBAY has shipped us large quantities of the CHINGARORA during the past two years, and although we have been pressed to supply the demand for this delicious luxury to the veteran smoker, yet we are now prepared to offer it in unlimited quantities, at a price much lower than com American tobacco of a far inferior quality.

A connoisseur has but to smoke the American tobacco and segars, which are invariably chemically flavored, to be disgusted with the medicinal taste which leaves a nauseous, unhealthy coating in the mouth, and in time seldom fails to shatter the nervous system.

The natives of the "ORIENT" smoke the CHINGARORA from morn till night, from youth to age, and are happily unconscious of the wild, distressing fire which courses through the veins of the inhaler of the fumes of tobacco containing *Nicotin*.

We invite every lover of the weed to try the CHINGARORA, and guarantee unprecedented pleasure in its delicious flavor. Sold everywhere at $1, a pound.

THE UNION PACIFIC
RAIL ROAD CO.

Are now constructing a Railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offers a limited amount of their

FIRST MORTGAGE BONDS

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road was completed from Omaha 505 miles west on the 1st of January, 1867, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 212 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

MEANS OF THE COMPANY.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,410,000; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended; —on 350 miles of this road the cars are now running, and the remaining 167 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, like the Government Bonds they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Peerless Cooking Stove.

THE Boston Journal speaks of this stove as follows:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Be a agent in Newport.

C. A. RICHARDS & CO'S,
CONCENTRATED
EXTRACT OF RYE,

THE Proprietors of this popular article, find it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE,
THAT
IT IS NOT
a mere dram-drinking beverage, but a TRUE, GENUINE, and SCIENTIFICALLY PREPARED

MEDICINE.

It is not as many have been led to believe, nothing but good Rye Whiskey; it is a

MEDICINAL REMEDY,

specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have

TO SAY ABOUT IT,

without any long, half sounding words, such as some doctors use to mystify and bewilder a patient until he can't begin to tell what does not all him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the

Juices of the Grain,

combined with a certain oily, fatty, and vegetable matter, which, when taken into the system, stimulates it first to

NEW LIFE,

and a restored appetite, and then goes to make BETTER and STRONGER

FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently

IT IS WHAT YOU WANT

when you have a bad cough, to cure it, or when you have

CONSUMPTION OF THE LUNGS,

to heal and build them up again. So much for those troubles.

Now, if you want an article TO FEED THE SYSTEM ON, when it has become reduced by sickness or by being OVER-TAXED IN ANY WAY, this medicine will

DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people

Gain Flesh and Grow Fat.

The reason for this is the

GRAND SECRET OF THE WHOLE MATTER.

It acts as a

STIMULATING FOOD

to the body, and helps Nature

THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *entirely composed.*

This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is not sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.
